Donate your computer, not your data.

goodwill

At Goodwill, we provide free data destruction services with every computer donation we receive. That means we clean all data left on the hard drive to Department of Defense standards on any device intended for resell.

Even better? Your donations fund Goodwill's local career training and support services while also reducing e-waste in landfills.

How can I donate?

Drop off at any Goodwill store location listed on the back. Just drive up to the donation bay and an attendant will come out to help you.

Can my business donate off-lease computer equipment?

Yes! We can handle large donations from your business and even arrange to pick them up. Simply contact us at:
www.goodwillheartland.org/contact-us

What can I donate?

All Goodwill Stores accept and recycle working and non-working computers and peripherals:

- Computers
- Tablets
- Printers
- Cell phones
- Monitors
- Scanners

Sorry, we cannot accept:

- Empty inkjet cartridges
- CRT monitors with cracks or glass breaks

Instructions for device prep and data security can be found at:
www.goodwillheartland.org/donate/computer-donations

Responsible Recycling

Dell Reconnect
Technology recycling with Goodwill®

Dell Reconnect is a no-charge computer recycling program managed by Dell and Goodwill. This partnership provides local consumers and small businesses with a free and convenient way to recycle their used tech while helping people in our communities receive skills training and job opportunities.
